The Andréa Rizzo Foundation was established in memory of Andréa Rizzo, a young woman who survived childhood cancer & was tragically killed at the age of 24 by a drunk driver. Her dream was to become a dance therapist and give children with cancer & disabilities the gift of dance. With the support of many, *Dréa's Dream* has become a reality. *Dréa's Dream* provides pediatric dance therapy to children with cancer and special needs in hospitals, schools, and medical settings.
